

Claim listing of marking version

Claims 1-63 (Previously Cancelled).

Claim 64 (Currently amended). A pharmaceutical composition in the treatment of ~~one or more ailments~~ ~~ailment of selected from the group comprising hypersensitivity reaction diseases,~~ allergies; by lowering humoral pH with edible acid or its ~~acidic~~ acidic salt wherein said pharmaceutical composition comprises by weight:

0.06.about.100 wt% of edible acid and/or its acidic salts of sodium or potassium, and

pharmaceutical acceptable carrier;

said edible acid is ~~selected from the group comprising~~ phosphoric ~~[[aid]]~~ acid, ~~fumaric acid, maleic acid, malic acid, tartaric acid, citric acid, lactic acid, .alpha. hydroxy octanoic acid, gluconolactone, .alpha. hydroxy ethanoic acid, acetic acid, and propionic acid;~~

~~said pharmaceutical acceptable carrier selected from the group comprising a binder, an inert, a diluting agent, an agent, a thickener, a softener, a dispersing agent, an emulsifier, a preservative, a lubricant, a sweetener, a perfume and a pigment.~~

Claim 65 (Currently Amended). A pharmaceutical composition according to claim 64 wherein said composition is an oral agent, ~~non-oral agent~~ or topical usage.

Claim 66 (Currently Amended). A pharmaceutical composition according to claim 64 wherein said composition is for oral administration in a form [[of]] ~~selected from the group comprising~~ a capsule, a tablet, flakes, a powder, a pill, lozenges, a syrup, a solution ~~[[and]]~~ [[or]] a suspension.

Claim 67 (previously Cancelled).

Claim 68 (Currently amended). A pharmaceutical composition according to claim 64 wherein said composition is [[an]] injection.

Claim 69 (Currently Amended). A pharmaceutical composition according to claim 64 wherein said composition is for topical use ~~none-oral agents~~ in a form ~~selected from group comprising~~ [[of]] solution, paste, ~~aero-sol~~, [[or]] spray and ~~skin absorption~~.

Claim 70 (Currently Amended). A pharmaceutical composition according to ~~any claims of~~ claim 64, ~~85-89, 91 or 93~~ wherein said composition is for use ~~used as an~~ [[in]] health care food.

Claim 71 (Currently Amended). A ~~pharmaceutical composition~~ health care food according to claim 70 wherein said health care food is in a form [[of]] ~~selected from the group comprising a juice, a wine, a soft drink, a carbonated drink, a none carbonated drink, a tea, a sports drink, a functional drink, a coffee, a cola, a sarsaparilla, and~~ [[or]] a dairy product.

Claim 72 (Currently Cancelled).

Claim 73 (Currently Amended). A pharmaceutical composition according to claim 64 wherein said composition is ~~an agent for~~ use in lowering allergy risk of food containing active protein which causes allergy, by addition of 0.06.about.10(wt/wt%) of edible acid.

Claim 74 (Currently Cancelled).

Claim 75, 76 (Previously Cancelled).

Claim 77 (Currently amended). A pharmaceutical composition according to claim 64 wherein said composition is ~~an agent~~ for use in lowering allergy ~~risk for~~ risk of cloth or grove containing active protein which causes allergy, by treating them with 0.06 about 10(wt/wt%) of edible acid.

Claim 78 (Currently Cancelled).

Claim 79, 80 (Previously Cancelled).

Claim 81 (Currently Cancelled).

Claim 82 (Currently Amended). A pharmaceutical composition according to any claims of 64, 86-88 ~~85-92, or 93~~ for animals.

Claim 83 (Currently Amended). A pharmaceutical composition according to any claims of 64, 86-88 ~~85-92, or 93~~ for mammal animals.

Claim 84 (Currently Amended). A pharmaceutical composition according to any claims of 64, 86-88 ~~85-92, or 93~~ for human.

Claim 85 (Currently Cancelled).

Claim 86 (Currently Amended). A pharmaceutical composition according to claim 64 wherein said composition ~~ailment~~ is for use in the treatment of insect bit; ~~said edible acid selected from the group comprising phosphoric acid, maleic acid, malic acid, tartaric acid, citric acid, lactic~~

~~acid, alpha-hydroxy octanoic acid, gluconolactone, alpha-hydroxy ethanoic acid, acetic acid, and propionic acid.~~

Claim 87 (Currently Amended). A pharmaceutical composition according to claim 64 wherein said composition ~~ailment~~ is for use in the treatment of inflammation; ~~said edible acid selected from the group comprising phosphoric acid, maleic acid, malic acid, tartaric acid, citric acid, lactic acid, alpha-hydroxy octanoic acid, gluconolactone, alpha-hydroxy ethanoic acid, and propionic acid.~~

Claim 88 (Currently Amended). A pharmaceutical composition according to claim 64 wherein said composition ~~ailment~~ is for use in the treatment of itch; ~~said edible acid selected from the group comprising phosphoric acid, succinic acid, fumaric acid, maleic acid, malic acid, tartaric acid, citric acid, lactic acid, alpha-hydroxy octanoic acid, gluconolactone, alpha-hydroxy ethanoic acid, and propionic acid.~~

Claim 89-93 (Currently Cancelled).

REMARKS

As indicated by the Examiner the applicant has elected phosphoric acid as active compound and cancelled the claims of products and methods (claim 72, 74, 78, 81, 85, and 89-93). Claims also have been amended (claim 64-66, 68, 69, 71, 73, 77, 85-93) and claimed according to the instruction of the Examiner without adding new matters. Claim 64 is the only one independent claim and the others are dependent on that. All dependent claims are the use of claim 64. Forms of health care food are all readable in description.
